You can also eat too much blacking and that will
make the others taste bad.

An ointment of balsam may not injure you, but will
make you uncomfortable until your stomach is
plastered over with it. It is a good idea to
injure your stomach but make them look wonderful.

It is an attempt to make an angel of the
devil without abbreviating his tail or sawing
off his horns. It takes dollars from the
farmers and returns them dimes. It
does not accomplish a single duty which will
help the Kansas farmer.

The McKinley bill is an outrageous per-
formance. It is but a cheap monkey show
in the face of high heaven and of the
American people.

A Cheap Monkey Show That is Endorsed
In the Face of High Heaven, in Kansas.

WICHITA, KAN., May 28.—The Wichita
Edition of March 28, the Wichita
Independent Republican paper in Southwest
Kansas, has this to say in a double-headed
editorial:

The McKinley bill is an outrageous per-
formance. It is but a cheap monkey show
in the face of high heaven and of the
American people.

It is an attempt to make an angel of the
devil without abbreviating his tail or sawing
off his horns. It takes dollars from the
farmers and returns them dimes. It
does not accomplish a single duty which will
help the Kansas farmer.

What do we care about the duty on eggs
and on lay? This suggestion ought to
render the average Kansas rooster impotent,
and start the hens of every barnyard
west of the Mississippi in crowing.

The McKinley bill, the ungodliness of the
Reed-Cannon bill, the ungodliness of the
House of Congress, and hypocritical pro-
hibition, if the Republican party in Kan-
sas does not hear something drop next
November, then twenty-seven years in the
editorial service has only fitted us for an

attempt to fulfill our destiny.

The additional duty on wool is but a
water-gavel of the weakest sort for the
Kansas farmer, upon whose heart's blood
the goldite of Wall street and the combi-
nate of New England and Boston
endeavor to full their purposes.

As the stars in their course fought
against Sisera, so the civilization of the
closing hours of the nineteenth century
fights against the hide bound tariff bur-
dens with which the West is being saddled
by the iron hand of the Northern
manufacturing and Atlantic money cen-
ters. Satiated too, by the men, by the pol-
itical parties which the people them-
selves sustain and keep in power.

This is the position which the people of
Kansas will hold and maintain in spite of
the \$50,000 machine majority that was
rolled up by the state a few months since
for Ben Harrison and Protection.
